

We specialize in helping Law Firms succeed

At Signature Bank, we specialize in working with Law Firms and understand how you run your business and the unique challenges you face. We've designed loan and cash management programs specifically for you. We know how to handle IOLTA and Escrow accounts, and have the right technology to support how you work.

We're a local business too and each member of our management team has more than 20 years banking experience in the Chicago area. Signature Bank was founded on the principle of putting the "relationship" back into banking. We take pride that decisions are made here in our office by people who know your name and understand your law firm's needs. We personally oversee the details of your accounts and are committed to helping your law firm prosper. We do this without call centers, junior officers and out-of-town decision makers. This is what makes Signature Bank different and an ideal partner for your Law Firm.
